Hi Molly! I heard you had a few questions about the Climate Ready Estuary Program.

We received an EPA CRE grant and completed it in 2012 for modeling sea level rise and climate change scenarios for different restoration alternatives for the Ballona Wetlands Restoration Project. Two final products came out of this grant (in addition to the modeling data), including a final report which can be found on either of our websites, below, or a direct link here:

[http://santamonicabay.org/wp-content/uploads/2014/05/BallonaCREStudy\\_FINAL-Report\\_12-12-12.pdf](http://santamonicabay.org/wp-content/uploads/2014/05/BallonaCREStudy_FINAL-Report_12-12-12.pdf)

The second product was a publication in the journal, *Urban Coast*. I attached an electronic copy of that publication to this email, along with a copy of the original work plan from 2010 to the EPA, when we received the grant.

I hope that answers your questions with regards to our project. I came in towards the end of this project to help them write the final report (link above). But please don't hesitate to give me a call if you have any additional questions, and either Guangyu or I should be able to answer them.

Hope all is well! Hugs to Luke! : )

Cheers,

Karina Johnston
